TOPICS OF THE CONFERENCE

The conference is focused on the relationships between theory and practice of conservation-restoration in the field of heritage preservation, considering the positions and developments of the 20th Century for the challenges of the 21th Century.

Particular attention is directed to architectural heritage, its surroundings and its fittings, such as architectural surfaces and wall paintings, stuccos, decorative elements in stone, majolica, ceramic etc. Contributions and discussions tackle with experience and perspectives of conservation-restoration especially in European heritage preservation. This is due to the conference's involvement into the EYCH European Year of Cultural Heritage program 2018. A critical look from outside Europe is welcomed and expected to provide important input and fresh perceptions.

Ethics of conservation concern the issue of relationship between objects and actors, i.e. between our heritage and the professionals dealing with heritage preservation. Ethical principles as basis for developing appropriate methods and techniques of conservation-restoration are required. These applied ethics are closely connected with the professional ethics of conservator-restorers and of all other specialists involved in the preservation of architectural heritage. The conference will pay attention to improve interdisciplinary cooperation between conservator-restorers, architects, craftsmen, art historians, building archaeologists, conservation scientists and all others active in this field. With reference to every day practice, the debate will deal with the specific professional profiles and tasks of all these specialists and try to increase the quality of communication and co-operation.

INFORMATION ON ACCOMMODATION

The delegates are kindly invited to use the *Best Practice* Reservation Portal www.vivafirenze.it that is a practical application of the **Life Beyond Tourism philosophy**. You can choose among over 200 accommodation facilities to get the option that better suits you in terms of prices (the same hotel fares as in the other international reservation portals), location, category, etc.

This is a way to better know how the [Life Beyond Tourism Model](#) operates on the territory and for the territory interpreting and communicating it to the visitors; indeed, booking your stay with Vivafirenze you (without any extra-costs for you) contribute to support a crowdfunding campaign for 4 special restoration projects in Florence as with the Model you can do on your territory:

- **“Rediscover Florence”**, the project aims to visit well-known places of Florence with a different perspective thanks to the suggestions of a geologist and a history expert, and to discover so many hidden treasures along three proposed routes.
- **“3 piazze per Firenze per bene”**, The project aims to intervene in some busy and in-need-of care locations in the historic center of Florence. The volunteers would like to remove illegal billpostings and graffiti, to clean the area and to contribute to a better quality of life in *Piazzetta dei Tre Re*, *Piazza San Paolino* and the ‘*Loggia del pesce*’.
- **“Restoration in Santissima Annunziata Church”**, the project aims to protect, restore, conserve and enhance historical and artistic heritage housed at the Basilica of the Santissima Annunziata in Florence.
- **“Florence, the other one”**, the project includes mapping of and visits to small sites in the city. They are so-called “minor” places with historical and artistic interest and have particular significance in Florence.

For these reasons, the reservation portal www.vivafirenze.it has been selected by the Organizing Committee as the official one for the Conference.

Please kindly note, given the occupancy level of hotels in Florence expected in March, rooms will be allocated on a first come, first served basis.
